BETHANY LEAHY, MS, EP

The partnership between The 80th Street Residence and FOX Rehabilitation continued to grow and thrive throughout 2017. Through FOX's Optimal Living Program, we provided 80th Street with exceptional physical, occupational, and speech therapy. In addition to skilled therapy, FOX's wellness program provided 80th Street residents with a full schedule of evidence-based, clinically-excellent classes, walks through Manhattan's Upper East Side, and regular assessments to evaluate the functional mobility of each resident.

Throughout 2017, we performed 15 presentations, 113 care conferences, 48 equipment consultations, and 34 off-site assessments, among many other clinically-excellent services. Together, 80th Street and FOX have managed to slow the progression of an incurable disease and provide joy and fulfillment to those with Alzheimer's Disease.

We look forward to continuing to grow and work together in 2018!

- LORI LANTZY, PT, DPT, CSCS
