

I cannot overstate the very high quality of care, individualized attention, kindness and respect that The 80th Street Residence is providing to my mother.

Every team member starting with Clare Shanley and Lindsey Harbison is dedicated to the residents and readily accessible to their families. Just as importantly, the team members are skilled in making the transition for new patients a seamless, stress free and positive one.

The daily activities and special programs are bringing so much pleasure to my mother who is thriving in The 80th Street Residence environment.

I'd researched and visited many residences before I learned of The 80th Street Residence. It truly is a unique gem that I cannot recommend highly enough.
